PUBLIC NOTICE

Request For Proposal (RFP) CONNECT OUR SCHOOLS PROJECT LOTS 7 & 8

Provision of Computers, Broadband and Solar Power Services

The National Information Communication Technology Authority (NICTA) invites experienced and reputable suppliers to submit proposals for the following two separate Requests for Proposals (RFPs) under LOTS 7 & 8 of the Connect Our Schools Project (CSP):

1. Provision of Broadband Connectivity and Solar Power Systems

(a) [LOT7: RFP# UAS24-RFP-CSPL7-BCSP-v1](#)

(b) [LOT8: RFP# UAS24-RFP-CSPL8-BCSP-v1](#)

2. Provision of Desktop Computers

(a) [LOT7: RFP# UAS24-RFP-CSPL7-DC-v1](#)

(b) [LOT8: RFP# UAS24-RFP-CSPL8-DC-v1](#)

This initiative aims to enhance digital learning by providing reliable internet connectivity and sustainable energy solutions, along with desktop computers, to students and teachers in underserved schools across the country. The project recognizes the critical role of digital literacy and access to online educational resources in modern education.

Instructions to Bidders:

1. Provision of Broadband Connectivity and Solar Power Systems

Interested suppliers must demonstrate their capability and experience in delivering both broadband connectivity solutions and power systems to support digital learning in remote schools. Proposals must include a detailed design aligned with technical specifications for connectivity and power, pricing, and delivery timelines.

2. Provision of Desktop Computers

Interested suppliers must demonstrate their capability and experience in supplying and delivering computers for educational use. Proposals should include a detailed specification of the computers, pricing, and delivery timelines.

The Request For Proposal (RFP) documents, outlining detailed specifications and submission requirements, is available for download on our website: <https://www.nicta.gov.pg> or <https://uas.nicta.gov.pg>.

Proposals should be submitted via email **ONLY** to uas@nicta.gov.pg.

Submission Deadline: 4:30pm 31st October, 2025.

NICTA looks forward to collaborating with dedicated suppliers to advance teaching and learning through this project.
